

**Purpose:** This report serves as the official statement of West Nile Virus activity in humans, mosquitoes, and birds within the jurisdiction of the Cook County Department of Public Health. All data are preliminary and may change as more reports are received.

**Risk Assessment:** The risk of human West Nile Virus infection is **high**.

**Prevention:** When outdoors between dusk and dawn, cover skin with lightly colored loose fitting clothing and use mosquito repellent with DEET, picaridin or oil of lemon eucalyptus. When applying repellent, always follow the directions on the product label. Get rid of standing water around your home in pet bowls, flower pots, old tires, baby pools and toys. Water that is allowed to stagnate for three or four days becomes a breeding ground for mosquitoes. Make sure your doors and windows have tightly fitting screens and repair any tears or other openings. Keep weeds and grass cut short and keep gutters clean and free of debris.

**Mosquito<sup>1</sup> Surveillance:**

Weekly Summary	Week 32	
Number of mosquitoes tested	19819	
Number of mosquito pools tested	491	
Number of positive pools	303	
Percent of pools testing positive	61.7%	
Number of communities with positive pools	56	

Year To Date Summary	3 Year Average	2018
Number of mosquitoes tested	164988	164815
Number of mosquito pools tested	3675	4177
Number of positive pools	591	907
Percent of pools testing positive	16.2%	21.7%
Number of communities with positive pools	60	66

**Percent of Mosquito Pools Positive for West Nile Virus**

**West Nile Virus  
Surveillance Report  
Week 32: Aug 5<sup>th</sup> – Aug 11<sup>th</sup>, 2018**

1. Includes mosquito surveillance data from Cook County Department of Public Health, North West Mosquito Abatement District, North Shore Mosquito Abatement District, Des Plaines Valley Mosquito Abatement District, South Cook County Mosquito Abatement District, and the Illinois Department of Public Health.
2. When mosquitoes are tested for West Nile Virus, they are tested in groups, or "pools", of up to 50 mosquitoes. Therefore when a mosquito pool tests positive, the number of WNV positive mosquitoes in that pool is unknown. It is only known that at least one mosquito in the pool was positive.
3. See page 3.

**Bird Surveillance:**

Twelve birds have been submitted for testing, eight have tested negative, one bird from Northbrook has tested positive and one bird was untestable. Waiting for results on two birds.

**Human Case Surveillance:**

Two cases of West Nile Virus have been reported in week 32; one cases was neuroinvasive.

***West Nile Virus  
Surveillance Report  
Week 32: Aug 5<sup>th</sup> – Aug 11<sup>th</sup>, 2018***

The following towns had traps that were positive for West Nile Virus this week: Alsip, Arlington Heights, Barrington, Berkeley, Berwyn, Broadview, Brookfield, Buffalo Grove, Calumet City, Chicago Ridge, Cicero, Des Plaines, Elgin, Elk Grove Village, Elmwood Park, Evanston, Forest Park, Glencoe, Glenview, Harwood Heights, Hillside, Hodgkins, Hoffman Estates, Homewood, Justice, Kenilworth, La Grange, La Grange Highlands, La Grange Park, Lansing, Lemont, Lincolnwood, Lynwood, Melrose Park, Morton Grove, Niles, Norridge, Northbrook, Northfield, Oak Lawn, Oak Park, Orland Park, Palos Hills, Prospect Heights, Richton Park, River Forest, Rolling Meadows, Schiller Park, Skokie, South Holland, Streamwood, Summit, Wheeling, Willow Springs, Wilmette, Winnetka.

The following towns have had traps positive for West Nile Virus at some point this season: Alsip, Arlington Heights, Barrington, Berkeley, Berwyn, Blue Island, Broadview, Brookfield, Buffalo Grove, Calumet City, Chicago Ridge, Cicero, Country Club Hills, Des Plaines, Elgin, Elk Grove Village, Elmwood Park, Evanston, Evergreen Park, Flossmoor, Forest Park, Franklin Park, Glencoe, Glenview, Glenwood, Harwood Heights, Hickory Hills, Hillside, Hodgkins, Hoffman Estates, Homewood, Justice, Kenilworth, La Grange, La Grange Highlands, La Grange Park, Lansing, Lemont, Lincolnwood, Lynwood, Melrose Park, Morton Grove, Niles, Norridge, Northbrook, Northfield, Oak Lawn, Oak Park, Orland Park, Palos Heights, Palos Hills, Park Ridge, Prospect Heights, Richton Park, River Forest, Rolling Meadows, Schiller Park, Skokie, South Holland, Streamwood, Summit, Tinley Park, Wheeling, Willow Springs, Wilmette, Winnetka.

Not all towns have mosquito traps so West Nile Virus activity may be unknown in your area. CCDPH recommends all residents practice good West Nile Virus prevention habits throughout the summer season.
