

About Continuous Medicaid Enrollment

Take action now to maintain coverage

Medicaid continuous coverage requirements ended March 31.

During the COVID public health emergency, Medicaid Continuous Enrollment protected people from losing Medicaid coverage. The public health emergency declaration will end May 11, 2023. Medicaid Continuous Enrollment and other Medicaid flexibilities will be ending too. This means:

- Medicaid customers could lose coverage as soon as July 1, so don't wait to renew.
- Individuals must go back to applying for their eligibility of benefits every year. This is called redetermination.
- It is critical that those receiving Medicaid benefits take action to avoid losing coverage.

To continue your Medicaid coverage, manage your case at abe.illinois.gov or call 1-800-843-6154 for help with the renewal process.
