
Restorative Practices Open Call

Response to Questions Submitted by Email June 29, 2026

Question:

My organization is interested in the Restorative Practices in School grant, but we had a question about eligibility. Is the County expecting this grant to go to K-12 schools or are Early Head Start/Head Start locations eligible?

Response:

Yes, Early Head Start/Head Start locations are eligible to apply for the Restorative Practices in Schools Open Call.

Please note that all proposed services and activities must be provided within suburban Cook County, excluding places with their own state-certified health department (Oak Park, Evanston, Skokie, and Stickney Township). While applicants may have administrative offices outside suburban Cook County, grant-funded services, participants and all activities must benefit residents of suburban Cook County.
